2/18/67

Dear Sylvia,

Thanks for your note of 2/14 which reached me this am. Arnold report mailed. I'll send another if it doesn't reach you.

I've heard nothing about the Schiller-Dell book, but if Dell does it I think they'll not likely forget it. Please keep me posted. The time may be near for legal action.

I knew about Russell. It is I who told Penn. One of my fans tipped me off - from that town!

Sorry-just discovered I hadn't mailed Arnold end copy of my letter to WAKR. Here they are, with the rough of a letter to Bahmer that I do not need. It is for your information and I think most of it will be clear to you.

Life and AP are sitting on the missing frames. I've just written Life for them and will have AP written. (Enclosed)

I'm saying nothing about New Orleans. I suspect premature release was designed to frustrate the intent. UPI now says man fitting Ferrie's description has been picked up. I'm releasing something not directly related that may add interest. I earlier introduced Tom to dependable foreign correspondents who are keeping him posted as his "principals" are not. He has not been approached as of a half hour ago. But I have used this business to attract radio interest to the story of the False False Oswald, as far away as San Fransisco, taking to ~~as doctor~~ as 3 a.m. today. I'm doing more next week, beginning Sunday with a San Fransisco broadcast (tomorrow).

How I wish I had III done now. I've a hundred pages related to this!

As always, in too much haste.
